	All the data is directly from the Secretary of States' Office.																
	Ballots Cast and Total Ballots SHOULD be the same, however they are not.																
	Reported vs. Count shows the difference between what the Town/City said was cast and the way they apportioned the voted ballots. Look at Cranston, Pawtucket, and (OMG) Smithfield																
	How did they get so many BLANK ballots?																
	% of voters voting is interesting also.
